ICONICS ActiveX ToolWorX Wizard (Version 5.20.54.4)

Welcome to ICONICS ActiveX ToolWorX Wizard.

This Wizard is designed to assist you in the creation of a source code framework for developing components using ActiveX ToolWorX.

Most of the project modifications made by this wizard are automated, although you will have to perform some steps manually. When manual modifications are required you will be prompted with the correct information to enter before you need to make the changes.

New Project Information

MFC ActiveX ControlWizard will create a new skeleton project with the following specifications:

MFC ActiveX Control project MyActiveX mak

DLL name: MyActiveX ocx

DLL initialization code in MyActiveX.h and MyActiveX.cpp

Type library source in MyActiveXh.odl

MyActiveX Control:

Control class CMyActiveXCtrl in myActiveXCtrl.h and MyActiveXCtrl.cpp

Property page class CMyActiveXPropPage in MyActiveXPpg.h and MyActiveX

Toolbar bitmap in MyActiveXCtrl.bmp

Activates when visible

Available in "Insert Object" dialog

Has an "About" box

Install Directory
E:\ProgramFiles\DevStudio\Myprojects\MyActiveX

OK

Cancel
